#### Lands Affected

- 3. (a) This By-law applies to the lands designated as the Jackson Growth Area on Schedule C. While every attempt has been made to accurately depict the boundaries of the Growth Areas on Schedule C, for the purposes of calculating the applicable development charge, the boundaries are considered to be conceptual. The City shall interpret the Growth Area boundaries, recognizing that the rationale for inclusion within a specific growth area is primarily related to common trunk storm and sanitary servicing systems.
- (b) This By-law shall not apply to lands which are owned by, or used for the purposes of,;
  - (i) the City or a local board thereof;
  - (ii) a board of education.
- (c) The development of land within the City may be subject to one or more development charges by-laws of the City.

#### Designation of Services

- 4. It is hereby declared by Council that all development of land within the City will increase the need for services.
- 5. The development charge applicable to a development as determined under this By-law shall apply without regard to the services required or used by an individual development.
- 6. Development charges shall be imposed for the following categories of services to pay for the increased capital costs required because of increased needs for services arising from development:
  - (a) Jackson Growth Area Specific Engineering Infrastructure:
    - (i) Roads and related;
    - (ii) Sanitary sewage works;
    - (iii) Stormwater management works;
    - (iv) Other engineering infrastructure (as required).

#### Approvals for Development

- 7. Development charges shall be imposed against all lands, buildings or structures within the area to which this By-law applies if the development of such lands, buildings or structures requires any of the following approvals:

- (a) the passing of a zoning by-law or of an amendment thereto under section 34 of the *Planning Act*;
  - (b) the approval of a minor variance under section 45 of the *Planning Act*;
  - (c) a conveyance of land to which a by-law passed under subsection 50(7) of the *Planning Act* applies;

  - (f) the approval of a description under section 50 of the *Condominium Act*; or
  - (g) the issuing of a permit under the *Building Code Act, 1992* in relation to a building or structure, except where the development entails the conversion or renovation, but not expansion, of an existing building for a change of use which does not require any of the approvals provided in subsections (a) to (f) inclusive above.
8. No more than one development charge for each service designated in section 6 shall be imposed upon any lands, buildings or structures to which this By-law applies even though two or more of the actions described in section 7 are required before the lands, buildings or structure can be developed.
9. Notwithstanding section 8, if two or more of the actions described in section 7 occur at different times, additional development charges shall be imposed in respect of any increased or additional development permitted by such actions.
10. Where a development requires an approval described in section 7 after the issuance of a building permit and no development charge has been paid, then the development charge shall be paid prior to the granting of the approval required under section 7.
11. If a development does not require a building permit but does require one or more of the approvals described in section 7, then the development charge shall nonetheless be payable in respect of any increased or additional development permitted by such approval.
12. Nothing in this By-law prevents Council from requiring, as a condition of an agreement under sections 51 or 53 of the *Planning Act*, that the owner, at his or her own expense, install such local services related to a plan of subdivision or within the area to which the plan relates, as Council may require, or that the owner pay for local connections to storm drainage facilities installed at the owner's expense, or administrative, processing, or inspection fees.

#### Calculation of Development Charges

13. The development charge with respect to the use of any land, buildings or structures for residential development, or the residential portion of a mixed-use development, shall be calculated based upon the number and type of dwelling units.

#### Amount of Charge - Residential

14. The development charges described in Schedule B to this By-law shall be imposed on residential uses of lands, buildings or structures, including a dwelling unit accessory to a non-residential use and, in the case of a mixed use building or structure, on the residential component of the mixed use building or structure, according to the type of residential use. For the purposes of calculation of the

charge for a multi-suite residence, two suites shall be deemed to comprise one dwelling unit.

#### Indexing of Development Charges

15. All development charges set out in Schedule B hereto shall be adjusted by the City Treasurer without amendment to this By-law annually on January 1<sup>st</sup> in each year, commencing January 1, 2006, in accordance with the most recent annual change in the Statistics Canada Quarterly, Construction Price Statistics.

#### Phasing, Timing of Calculation and Payment

16. (a) Except as provided in subsection (b) hereof, the development charges set out in this By-law are payable, in full, subject to the exemptions and credits provided herein, from the effective date of this By-law.
- (b) Subject to section 21 (with respect to redevelopment), the development charges set out in Schedule B shall be calculated as of, and may be payable, at the option of the City, with respect to a final approval of a plan of subdivision or a severance under section 51 or 53 of the *Planning Act*, which approval occurs after January 1, 2006, immediately upon entering into the subdivision or consent agreement, based upon the number and type of residential lots created and, in the case of subdivision blocks, based on the maximum zoned capacity of the block pursuant to the City's zoning by-law. When no subdivision agreement or consent agreement is required, or where the development occurs on a lot which exists on or before January 1, 2006, the development charges for each building or structure shall be calculated as of the date of the complete building permit application, and shall be payable and collected as of the date the first building permit is issued in respect of the building or structure for which the development charge applies. The development charges shall be phased in, on January 1, 2005 and January 1, 2006, as set out in Schedule B.
- (c) If at the time of issuance of a building permit or permits for any development for which payments have been made pursuant to subsection (b), the total number or type of residential units for which building permits have been and are being issued is greater than that used for the calculation and payment referred to in subsection (b), an additional payment shall be required and shall be calculated by multiplying the applicable rates for those units shown in Schedule B, by the difference between the number or type of units for which building permits have been and are being issued and the number or type of units for which payments have been made pursuant to subsection (b) and this subsection.
- (d) Subject to subsection (f), if following the issuance of all building permits for all development in a subdivision or for all development in a block within that subdivision that had been intended for future development and for which payments have been made pursuant to subsection (b), the total number or type of units for which building permits have been issued is less than that used for the calculation and payment referred to in subsection (b), a refund shall be payable by the City to the person who originally made the payment referred to in subsection (b), which refund shall be calculated by multiplying the amounts of the development charges in effect at the time such payments were made by the difference between the number or type of units for which payments were made pursuant to subsection (b) and the number and type of units for which building permits were issued.
- (e) Subsections (c) and (d) shall apply with necessary modifications to a development for which development charges have been paid pursuant to a condition of consent or pursuant to an agreement respecting same.
- (f) Notwithstanding subsection (b), pursuant to section 27 of the Act, the City may enter into an agreement with a person required to pay a charge pursuant

to this By-law, including the provision of security for the person's obligations under such agreement, providing for all or part of the development charge to be paid before or after it otherwise would be payable. The terms of such agreement shall then prevail over the provisions of this By-law.

- (g) Where a development charge or any part of it remains unpaid after it is payable, the amount unpaid shall be added to the tax roll and shall be collected in the same manner as taxes.
- (h) Any refunds payable pursuant to subsections (d) and (e) shall be calculated and paid without interest.

#### Payment by Services

17. The City, may in an agreement pursuant to Section 38 of the Act, permit an owner to provide services in lieu of the payment of all or any portion of a development charge. The City shall give the owner who performed the work a credit towards the development charge in accordance with the agreement, subject to the requirements of the Act.

#### Rules with Respect to Exemptions for Intensification of Existing Housing

  - (d) creating one additional dwelling unit in any other existing residential building, where the total gross floor area of the additional unit does not exceed the gross floor area of the smallest existing dwelling unit in the building.

- (c) Prior to the City issuing a building permit for a temporary building or structure, the City may require an owner to enter into an agreement, including the provision of security for the owner's obligation under the agreement, pursuant to section 27 of the Act, providing for all or part of the development charge required by this section to be paid after it would otherwise be payable. The terms of such agreement shall then prevail over the provisions of this By-law.

#### Rules with Respect to the Redevelopment of Land

21. (a) Where there is a redevelopment of land on which there is a conversion of space proposed, or on which there was formerly erected a building or structure that has been demolished, a credit shall be allowed against the development charge otherwise payable by the owner pursuant to this By-law for the portion of the previous building or structure still in existence that is being converted or for the portion of the building or structure that has been demolished, as the case may be, calculated by multiplying the number and type of dwelling units being converted or demolished by the development charge shown in Schedule B on the date when the development charge is payable in accordance with this By-law.
- (b) A credit in respect of any demolition under this section shall not be given unless a building permit has been issued or a subdivision agreement has been entered into with the City for the development within five (5) years from the date the demolition permit was issued.
- (c) The amount of any credit hereunder shall not exceed, in total, the amount of the development charges otherwise payable with respect to the development.
- (d) The onus is on the applicant to produce evidence to the satisfaction of the City, acting reasonably, which establishes that the applicant is entitled to the credit against the payment of development charges claimed under this section.
