

WADING POOL LOCATIONS

The Recreation Division provides supervised wading pools at five locations throughout the City. These small, shallow pools are suitable for young children to approximately 8 years of age. Wading pools will operate from July 1 to August 21, 2011, and will be supervised daily from 11:30am to 4:30pm, seven days a week. Please Note: Children should not be left alone in the park without appropriate adult supervision. The wading pool program is not a babysitting service.
