

City of Peterborough Media Release

FOR IMMEDIATE RELEASE

February 7, 2008
Peterborough, ON --

WINTER UPDATE

As of 10:30 a.m. - the City of Peterborough, Public Works Division has had all their crews out during the night and are just finishing up the collector/arterial network. The local streets are now being cleared with an anticipated completion of around 16:00 this afternoon. Residents are requested to assist by removing parked cars from the street, especially overnight.

All the sidewalk crews are out but with the quantity of snow, this work will be very slow. It could take upwards of 3 days to complete all of the sidewalk work.

New complete crews will be brought in later today and will work throughout the night. We ask for everyone's patience as staff proceed to each and every area of the City.

This information is also available on our City of Peterborough website at www.peterborough.ca.
