Media Release

FOR IMMEDIATE RELEASE

October 22, 2009
Peterborough, ON --

The City of Peterborough, the Peterborough Public Library and the Community Opportunity & Innovation Network will be launching the Peterborough Community Calendar on Thursday, October 29, 2009 at 2:00 p.m. at the Peterborough Public Library. The launch will include a demonstration of the calendar, description of its benefits and an opportunity to meet the calendar developers.

The goal of the Community Calendar Project was to design an online event calendar for local arts, culture and heritage events for every community in Ontario. The software for the calendar is Open Source, which is being made available to public libraries throughout Ontario. Several other municipalities have already started implementing the software in their libraries.

Funding for the Community Calendars Project was provided by the Ministry of Culture through the 2007/2008 Library Strategic Development Fund.

This information is also available on our City of Peterborough website at www.peterborough.ca.
