February 26, 2010
Peterborough, ON --

Waste Collection Update: Missed Recycling Collection Due to Snow

The volume of snow that has fallen in the last 24 hours has caused a disruption to the Friday recycling collection service within the City of Peterborough. All of the garbage has been collected, however only 85% of the recycling was collected on Friday, February 26, 2010 due to difficult conditions.

Residents and businesses with uncollected recycling material are asked to bring their blue boxes back in from the curb and set them out next Friday for collection. Friday recycling collection **will not** be collected until next Friday.

Extra recyclables can be dropped off at the Recycling drop-off depot at 390 Pido Road, which is open 24 hours a day, seven days a week.
