FOR IMMEDIATE RELEASE

June 9, 2011
Peterborough, ON --

COMMUNITY SURVEY – BEAVERMEAD CAMPGROUND

The City of Peterborough has initiated a study of the Beavermead Campground, located on the east shore of Little Lake in Beavermead Park.

The purpose of the study is to complete a cost-benefit analysis of the campground, followed by the development of a strategy to guide use of the lands. This focused study was recommended in the Little Lake Master Plan, completed in 2010.

The City is seeking public input to guide the recommendations for Beavermead Campground. An on-line survey for the campground can be found at: http://www.surveymonkey.com/s/Beavermead_Campground_Survey. A link to the survey is also on the City's website at www.peterborough.ca.

In addition to the survey, a community meeting is planned for June. More details will follow.

This information is also available on our City of Peterborough website at www.peterborough.ca
