Peterborough, ON --

Have Your Say on the Future of Waste Management in Peterborough

If you are a resident of the City of Peterborough and would like to provide input into the direction that solid waste management should take over the next twenty years, the City wants to hear from you.

The City of Peterborough has initiated a Waste Management Master Plan study with a goal of developing a progressive and cooperative approach for a sustainable system to provide service over a long-term planning period. The study's initial phase includes an on-line survey to gather public input. Residents are encouraged to visit www.peterborough.ca/wmstudy for a link to the survey and more information on the study.

A Public Information Meeting will be scheduled for late October.

For further information, please contact Virginia Swinson, City Waste Reduction Programs Coordinator, at 705-742-7777 Ext 1725, or vswinson@peterborough.ca. Cambium Environmental, the consultant completing the study, will also receive comments at 705-742-7900 ext. 226, or kelly.murphy@cambium-env.com.

This information is also available on the City of Peterborough website at www.peterborough.ca.
