Media Release

FOR IMMEDIATE RELEASE

Friday, March 13, 2018
Peterborough, ON --

Handi-Van Temporarily Unavailable

Peterborough Transit's Handi-Van service is temporarily unavailable. A problem with the system's scheduling software has interfered with van deployment.

Information technology staff are working with the software provider to resolve the issue as soon as possible, hopefully within four hours.

Conventional Transit and the Community Bus are running on schedule.

Unfortunately, the loss of technology means that we cannot contact scheduled riders to advise if the service interruption. Updates are being provided on Twitter @PeterboroughTr1, on MyBeat and online at www.peterborough.ca/Transit.
