Company

Date

Note: The submission forms include a section for the Bidder to indicate the number of addenda they have received. If a Bidder does not reflect the proper number of addenda issued on the Tender documents submitted, the Tender would be rejected unless in the opinion of the City the missing addendum could not reasonably be expected to have altered the price submitted.

The City of Peterborough

Addendum Number 2 to Request for Tenders T-59-14

Item: Peterborough Airport Tree Clearing and Tree Trimming East of Otonabee River

The following outlines amendments to the original documentation for the above noted Request for Tenders.

Non- Mandatory Site Meeting

The Non-Mandatory Site Meeting was held on Wednesday, January 7, 2015 at the Peterborough Airport Air Terminal building. The meeting began at 3:00 p.m. with a presentation by Nancy Hewitt, Airport Administrator and Ian Waymann followed by a question and answer session. Non-Mandatory Site Meeting Attendees list attached. Submissions will still be accepted from those who did not attend as it was non-mandatory.

Question and Answer Session

1. **Attachment 4**

Can a feller buncher be used to complete the tree removal?

Answer: It is up to the successful bidder to decide what type of equipment can be used to complete the work.

2. **Item 7.3 Specification**

Can the trees and branches be processed on site?

Answer: The trees and branches can be processed on site as long as they are removed from site by March 1, 2015. Township by-laws concerning hours of work must be adhered to.

3. **Item 7.6.1 Disinfectant**

Do pruning tools need to be disinfected?

Answer: Yes

4. **Attachment 5 - Table 1 and 2**

Does the tree pruning have to meet the exact elevation in the specification?

Answer: Pruning height shall be at or below the height indicated in Tables 1 and 2 without killing the tree due to excessive pruning.

5. **Item 7.3 Specification**

Can the successful Bidder take material to Peterborough Green Waste?

Answer: The successful Bidder shall make their own arrangements for a location to take materials being removed off site.

6. 5.7.2 Performance Bond

Would The City of Peterborough consider removing the requirement to provide a performance bond? We would be willing to have the bid deposit held for the length/performance of the contract in lieu of the performance bond.

Answer: We are unable to change the performance bond requirement.

New Information

7. Item 7.5.2 Qualifications

Remove Item **7.5.2 Qualifications** in its entirety.

Replace with: “Staff proposed to complete any tree pruning shall have a certified arborist designation.”

8. Attachment 3 - Drawing TP1

An AutoCAD version of **Attachment 3 - Drawing TP1** will be supplied to the successful bidder.

9. Attachment 4 - Drawing TP-2, Attachment 5 – Table 1 and 2

Coordinates defining the various zones are provided on **Attachment 4 - Drawing TP-2**. Where pruning of individual trees is required within a zone, the coordinates for the individual trees are identified in **Attachment 5 – Table 1 and 2**. (Table 2 provided in Addendum #1)

10. Item 7.3 Specification

During tree removal, the contractor may identify trees that are unhealthy/structurally unsound where it may make more sense to cut down the trees currently identified for pruning. That being said, bidders shall assume for the purposes of their bid that pruning will be carried out as shown in the bid documents. During tree removal any unhealthy/structurally unsound trees marked by the Contractor will be reviewed by the City. If the City is in agreement to cut down these trees rather than prune them, pricing will be adjusted in accordance with the provisional pricing provided in **Appendix C – Pricing**.

11. Item 1.1 General Information

Remove: “clearing and grubbing of identified areas east of Otonabee River”

Replace with: “clearing and tree trimming east of Otonabee River”

12. Site Meeting Presentation attached.

End of Addendum #2
