

Reminder for Ontario Works recipients

New way to confirm family members are eligible for Ontario Works

Starting in **August 2018**, we will list your family members who are eligible for Ontario Works on your monthly **Statement of Assistance**.

This can help your family members receive community supports, such as housing subsidies, subsidized transit passes and recreation.

Making it easier to receive Ontario Works health benefits

Do you currently receive a paper drug card with your Ontario Works statement? We will no longer be issuing paper drug cards with monthly statements starting in **August 2018**.

Instead everyone can use their Ontario health card to access Ontario Works health benefits, such as prescription drugs and eye exams.

This will make it simpler and easier for you to get your prescription medication and other health services.

If you don't have an Ontario health card, you can use another form of government identification, such as your driver's licence or passport, or your monthly statement to show you are eligible for Ontario Works health benefits.
