What is a Temp Agency?

An employment agency, placement agency or temporary agency ("temp agency") matches workers with jobs. In other words, the agency finds you a job with another company. Employment agencies make money by charging the company that you work for, or they might take a percentage of your pay. (Source: <http://settlement.org/ontario/employment/find-a-job/employment-agencies>)

There are 3 main Temp Agencies in Peterborough:
