

Built For Zero Report Card

MAY 2021

BUILT FOR ZERO. PTBO

Built for Zero Canada is an ambitious national change effort to end homelessness, one community at a time. **Built for Zero Peterborough (BFZ-Ptbo)** is a group of local organizations committed to ending chronic homelessness by December 31st, 2025.

Each month **BFZ-Ptbo** will share information about the number of people experiencing homelessness in our community. We hope that sharing this information will promote transparency and accountability in our homelessness response.

By taking a close look at the data each month, we can start to:

- Focus on the facts (what we know), rather than the narrative (what we think)
- Adjust our services based on current events
- See what needs to be done to end homelessness
- Improve the lives of people experiencing homelessness

At least

270

people were experiencing homelessness in Peterborough City and County in May.

As part of our efforts to end chronic homelessness, we study changes in our chronically homeless population each month.

In May, there were 5 fewer people experiencing chronic homelessness than in April.

Of those,

110

people had been chronically homeless for six months or more in the last year.

WHAT HAS CHANGED

Inflow – People Added to our Chronic Homelessness Number

8

People became chronically homeless. Some have been in our system before and some we met for the first time.

14

People got back in touch after having not been heard from in 90 days or more. Some returned to town, or met the definition of chronically homeless again.

0

People lost their housing. They have been in our homelessness system before, secured housing, and then lost that housing.

Outflow – People Removed from our Chronic Homelessness Number

11

People moved into housing.

These people moved into housing (rental units, living with family, long term care, etc.).

16

People lost touch.

These people have not been heard from in 90 days or more, have left town, no longer meet the definition of chronic homelessness, or have died. People who no longer meet the definition of chronic homelessness are still captured in our overall number if they are still homeless.

**BUILT
FOR
ZERO.**
PTBO

WHAT THE DATA IS SAYING ABOUT CHRONIC HOMELESSNESS IN MAY:

8
people became chronically homeless.
This is the smallest number we've
seen in 9 months.

This is an opportunity to see what we're doing
that could be preventing people from remaining
homeless for long.

0
people lost their housing.

Supporting people to maintain housing is an
important part of preventing homelessness. We
can strengthen our homelessness prevention
efforts by continuing to explore ways we can
provide housing stability supports.

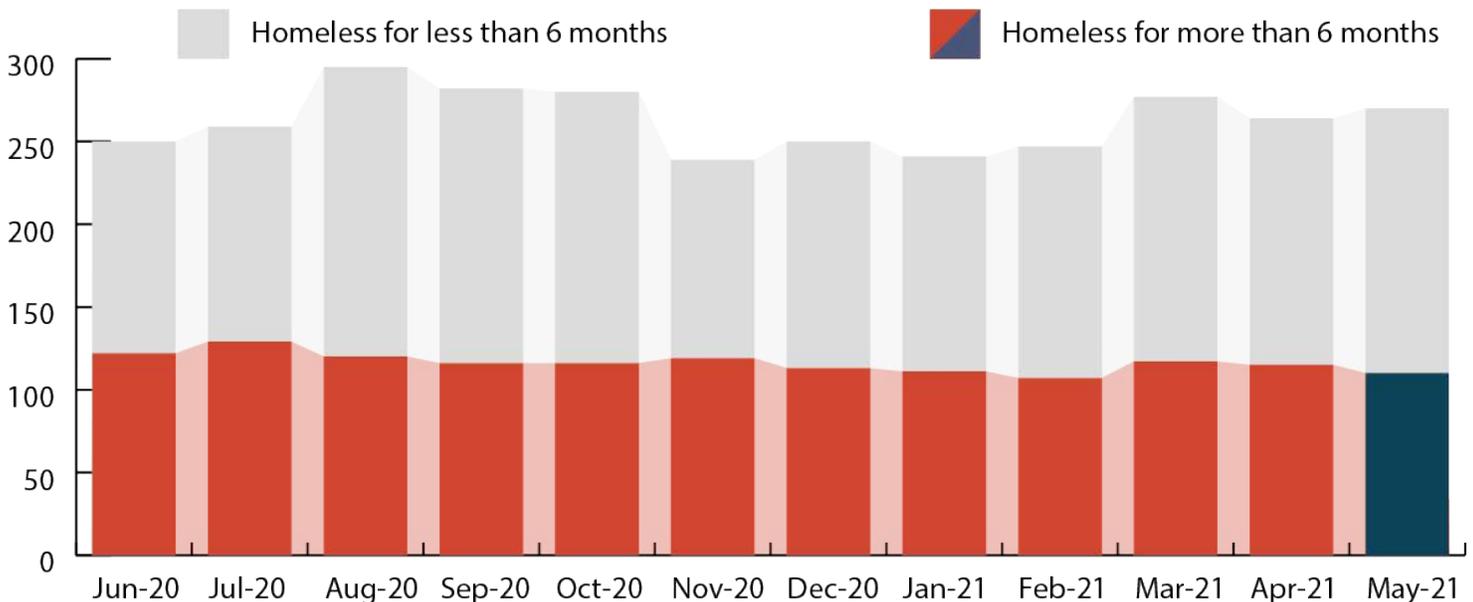

NOTES ABOUT HOMELESSNESS IN 2021

The year 2021 will continue to challenge us, with COVID-19 shelter restrictions, and a challenging housing market. We will continue to work towards our goal of ending chronic homelessness, whatever that takes.

In the first quarter of 2021 we encountered 152 unique individuals experiencing chronic homelessness. This is 25% fewer individuals than in the first quarter of 2020.

As of May 31 2021, there have been 126 shifts from homelessness to housing (38% of these shifts were from chronic homelessness).

THE LAST 12 MONTHS OF HOMELESSNESS IN PETERBOROUGH CITY AND COUNTY

Did you see our social media campaign in the fall 2020? We published 6 fact sheets that discuss key topics related to housing and homelessness.
