

Peterborough Airport Noise Liaison Group Resident Application for Appointment

The Peterborough Airport Noise Liaison Group (PANLG) provides a forum for liaison amongst area residents within the noise catchment area of the Peterborough Airport, key users of the airport, and airport management. In the development and operation of Peterborough Airport, it is recognized that good information exchange amongst these groups is important as we strive to better support and serve our existing businesses and airport users, to create new business opportunities for job creation and to recognize sensitive land uses within the noise catchment area.

The Peterborough Airport is committed to providing a safe and efficient operating environment for aircraft and airport users. The Peterborough Airport is operational 365 days a year and 24 hours a day. Aircraft are required to follow Transport Canada regulations while conducting flight operations within the vicinity of the airport.
