Contact Information

You will need either a phone number or email address that works in order for your file to stay active. This can include an alternate contact if you provide one. Housing Providers are not able to contact you using just post, text or social media.

Feedback

You will notice that the format for updating your file has changed. We would love your feedback! If you have any suggestions on how to make this process easier for you, please do send your comments to our office.

Online Portal

We now have the option of renewing your information yourself directly through an online portal. If you are interested in this option, please contact our office so that we can send you instructions and provide support if you need it.

Adding or Removing Household Members

If you are adding household members don't forget:

- a. They need to sign the application, if over 16 years of age.
- b. You may need to make new building selections with the right size of units available. Community Housing Map

An interactive Community Housing Map has been created online that includes more information about RGI units available on the waitlist. It also includes other affordable housing options. Please visit:

www.peterborough.ca/housingmap

Wait Times

We are unable to tell you how long your wait time will be. There are many factors that may cause you to move up or down the list(s) and it may change day-to-day. You will be the first to know when there is a vacancy where you are the top candidate.

Supporting Documents:

If you have already submitted proof of citizenship you do not need to do this again. We require proof of custody in households where there is part time custody of children. If you have questions on what you need to provide, please contact our office.

Rent Supplement Units

Peterborough Housing Corporation has agreements with private landlords to dedicate units in apartment buildings for people from the Centralized Wait List. The rent in these units is Rent-Geared-to-Income (RGI) level, which is the same as the other properties listed above. The number of units may decrease in the future if/when the Agreement is renewed. Also, the end date for the funding of some of these units is uncertain at this time.
