

CROSS CONNECTION CONTROL PROGRAM REGISTERED TESTERS/SURVEYORS

The following is a list of certified Backflow Prevention Device Testers who have registered with the City of Peterborough, Water Services Division, formerly Peterborough Utilities Commission (PUC). Please contact these Registered Testers directly as they are not employed by the City of Peterborough.

Disclaimer: The City of Peterborough (COP) makes no representation regarding the abilities, performance or quality of service provided by the Registered Testers listed below. Further, the COP does not accept or assume any responsibilities for the performance or actions of these Testers. Testers are required to submit proof of their certification as a tester of backflow devices issued by the AWWA, ASSE or approved equivalent and a valid Certificate of Calibration of their test equipment on an annual basis. Only persons listed herein are permitted to carry out functions required by the Cross Connection Control Program. Please refer to the functions noted below the list. You are required to use your own judgement with respect to contracting with these Testers.

Note: Qualified Testers should contact Dave Young at 705-748-9301, extension 1349 for information on how to become registered.

RESTRICTIONS

- 1 Master and Journeyman Plumbers certified as a tester are permitted to do all functions: surveys and testing, install, relocate or replace and repair any type of backflow prevention device. Apprentice plumbers certified as a tester are permitted to do all functions **except** carry out surveys.
- 2 A Fire System/Sprinkler Contractor certified as a tester is permitted to carry out surveys, testing, install, relocate, replace and repair backflow prevention devices in respect of Fire Protection Systems only.
- 3 A lawn irrigation system installer certified as a tester may carry out testing of backflow prevention devices in respect of lawn irrigation systems only. **Note:** The installation, relocation or replacement of a backflow prevention device for an irrigation system can only be done by a master or journeyman plumber or an apprentice plumber working under the direct supervision of a master plumber.
